

## Swedstyle FlexPower 8

*Power connector with eight electrical sockets for fitting to the bottom of the desktop allowing easy access for plugging in equipment.*

- Sockets as an integral part of the desk
- No more tangled cables
- Flexible fixings

FlexPOWER 8 is for users who need to be able to plug in a lot of electrical devices. It allows access to no less than eight electrical sockets. Fitted to the bottom of the desktop using fixings that allow flexible angling of the sockets for even better access.
